APPENDIX	9

No. 2058/20.

DUBLIN CASTLE,

5th January, 1921.

SIR,

I have to acknowledge the receipt of your letter of the 3rd instant, forwarding for submission to His Excellency the Lord Lieutenant, the Sixty-second Annual Report of the Board of Superintendence of the Dublin Hospitals, for the year 1919-20.

I am, Sir,

Your obedient servant,

JAMES MACMAHON.

Trevor N. Smith, Esq., F.R.C.S.I.,

Secretary to the Board of

Superintendence of Dublin Hospitals.

SIXTY-SECOND ANNUAL REPORT
OF THE
BOARD OF SUPERINTENDENCE
OF THE
DUBLIN HOSPITALS,
WITH
APPENDICES FOR THE YEAR 1919-20.

TO HIS EXCELLENCY THE RIGHT HON. FIELD-
MARSHAL VISCOUNT FRENCH, K.P., G.C.B., &c.

Lord-Lieutenant General and General Governor of Ireland.

OFFICE OF BOARD OF SUPERINTENDENCE

DUBLIN HOSPITALS,

22 CASTLE STREET,

DUBLIN, 30th September, 1920

MAY IT PLEASE YOUR EXCELLENCY :

We, the Board of Superintendence of the Dublin Hospitals have the honour to submit to your Excellency this our Sixty-second Annual Report under Statute 19 & 20 Vict., cap. 110, passed on the 29th July, 1856, entitled Dublin Hospitals Regulation Act.

During the year ending 31st March, 1920, we inspected all the Hospitals which receive grants from Parliament.

Viz. :—

1. Westmoreland Lock Hospital.
2. Dr. Steevens' Hospital.
3. Meath Hospital and County Dublin Infirmary.
4. Cork Street Fever Hospital.
5. The House of Industry Hospitals, viz. :—
 - (a) Hardwicke Fever Hospital.
 - (b) Whitworth Medical Hospital.
 - (c) Richmond Surgical Hospital.
6. Rotunda Lying-in Hospital.
7. Coombe Lying-in Hospital.
8. The Royal Victoria Eye and Ear Hospital ; and
9. Royal Hospital for Incurables, which receives a portion of the Concordatum Fund.

We carefully scrutinised and enquired into the condition of each Institution, more especially with regard to the following :—

- (a) *Financial Position.*
Income and Expenditure.
- (b) *General Condition of Buildings and Grounds, etc.*
State of Repair and Cleanliness.
Alterations and Additions (if any) since previous report.
Means of Escape from, and Extinguishing of Fire.
- (c) *Wards.*
General : How many available—
 (a) For Observation ;
 (b) For Infectious Cases.
Arrangements for Nursing, Air-space, Light, Heating.
Condition of Bedding and Beds.
- (d) *Sanitary Arrangements.*
Closets, Urinals and Slop Sinks.
Disinfecting.
- (e) *Theatres, Laboratories, etc.*
Operating ;
Pathological ; and
Pharmacy.
- (f) *Kitchen.*
Quality of Food and Cooking.
Means of keeping Food and Milk.
- (g) *Nurses.*
The number employed in each Hospital.
Their Sleeping, Sitting and Dining-Room Accommodation
- (h) *Servants and Wards-Maids.*
Bedroom and Dining-Room arrangements.
- (i) *Mortuary.*
Whether Satisfactory.
- (j) *Out-Patient Department.*
Average Daily Attendance.
Appearance and Sanitary condition of Waiting, Consulting,
and Dressing rooms.

In the Appendix are tables giving the following particulars for each Hospital during the year :—

Table No. 1 is a Classified Return of the Diseases of Patients.

Table No. 2 shows the number of Patients treated ; the mortality ; the average daily number in hospital, and the present extent of accommodation for each class of patients.

Table No. 3 shows the several sources of income.

Table No. 4 the several chief heads of expenditure.

Table No. 5 the average cost per bed for maintenance and for establishment, and for both combined, but exclusive of buildings and furniture.

Table No. 6 gives the price of articles supplied per contract.

Table No. 7 gives the attendances of each member of the Board of Governors at the several meetings.

As a result of our Inspection we have satisfied ourselves that all the Hospitals mentioned are conducted in an economical and thoroughly efficient manner, but it is greatly to be regretted that they are all in a more or less critical position financially. Another specially unsatisfactory feature, over which the Hospitals had no control, was the shortage of Coal, which was acutely felt during the harsh early Spring weather.

THE WESTMORELAND LOCK HOSPITAL.

This is a very old building and therefore labours under many disadvantages, notwithstanding which every part of it is thoroughly clean and we had ample evidence that the patients are well fed, the food good and the cooking excellent—in short, the Institution is admirably managed.

We have been in correspondence with the Board of this Hospital for some time with a view to their extending its usefulness. We were facilitated in every way by the Governors who, we should mention, initiated an Extern Department in April, 1919, which we were very pleased to observe has already attained quite respectable proportions, as it shows an attendance of 264 patients during the year and will no doubt develop still further according as it becomes better known.

We are convinced that this Hospital is a necessity in our City and does excellent work not only from a remedial point of view, but also inasmuch as it reduces very considerably the sources of infection from Venereal diseases. We wish, however, some means could be suggested by which its usefulness could be further extended.

Disposal of Patients for Year ended 31st March, 1920.

- 5 Sent to other Hospitals.
- 7 „ Magdalen Asylum.
- 14 „ Friends.
- 5 „ Workhouse.
- 4 Discharged for Insubordination.
- 1 Obtained a situation as maid.
- 5 Left contrary to medical advice.

The Institution is unique, in being able to confine its expenditure to the amount of the Government Grant, which is its sole income.

DR. STEEVENS' HOSPITAL.

This excellent Institution though very ancient—being in fact just about to celebrate its Bi-Centenary, continues its admirable work. We found the Hospital most satisfactory in all respects, being greatly impressed with the open-air treatment of the Phthisical patients. All such beds were occupied at the time of our visit. We also carefully inspected the Department for the diagnosis and treatment of Venereal diseases which, besides being an urgent necessity so far as the public are concerned, affords excellent training for students. This Hospital is also largely in debt, the overdraft being £7,946 0s. 0d.

THE MEATH HOSPITAL AND COUNTY DUBLIN INFIRMARY.

This Hospital founded in 1753, continues its praiseworthy work though greatly handicapped financially, and in our opinion it could not be kept in better order nor more economically managed. Upon entering the Hospital one is at once struck by the large, well-lighted and ventilated tessellated entrance hall with corridors and wards leading out of same; a particularly pleasing feature being the splendid accommodation for the Nursing staff. A spacious Dining Hall and up to date Store Room and Larder have been added since our last visit and were greatly needed. The overdraft in this case is £6,688 10s. 11d.

CORK STREET FEVER HOSPITAL.

Such an Institution as this is absolutely essential in every city, as it removes all infectious diseases from the homes of the poor, and the amount of good it does cannot be over-estimated. One pleasing feature about it is the very low Expense Ratio, in which respect it compares most favourably with similar Institutions across the water. The Hospital appears to have been exceptionally full during the past year owing to an outbreak of Measles and Influenza, when the Governors admitted, in addition to Policemen, a large number of soldiers as well as their wives and children.

The Institution is burdened with a debt of £5,882 6s. 5d.

THE HOUSE OF INDUSTRY HOSPITALS, VIZ. :—

- (a) Hardwick Fever Hospital.
- (b) Whitworth Medical Hospital.
- (c) Richmond Surgical Hospital.

We made a careful inspection of every part of these Hospitals and left perfectly satisfied that they were being conducted in a thoroughly efficient manner.

The Richmond Hospital is quite a contrast to the old-fashioned Hardwicke and Whitworth, being quite modern. We were informed that it was the desire of the Board of Governors to remodel the other Hospitals, but, owing to the cost of labour and material and the fact that they are very heavily in debt the much desired alterations have had to be indefinitely postponed. The Bank Overdraft is £5,843 5s. 2d.

THE ROTUNDA LYING-IN HOSPITAL.

We found everything in perfect working order.

As is well known this Hospital is a great teaching Institution for Students from almost all parts of the World, and the Report of its excellent work is published annually and is a most interesting subject of discussion at the Royal Academy of Medicine in Ireland.

We regret that the Hospital is in debt to the amount of £5,014 4s. 6d.

THE COOMBE LYING-IN HOSPITAL.

This Hospital does meritorious work in the heart of our City Slums. The fact of its been so hidden away may have something to say to its not receiving the financial support from the general public which it certainly deserves. The Coombe, like the Rotunda, also attracts Students, as well as indeed Doctors, from many parts of the world who come to obtain the great advantage of the practical Midwifery training for which Dublin is, and always has been celebrated.

The amount of the debt upon this Institution is £4355 18s. 5d.

ROYAL VICTORIA EYE AND EAR HOSPITAL.

We cannot imagine a better equipped or finer hospital of its kind than this and the amount of good it does must be incalculable, as it is in every way up-to-date and truly National in character, for its patients are received from all parts of Ireland. The pity is that sufficient funds are not forthcoming to enable its Governors to complete the building as originally designed and so permit them to extend its excellent work, but with a Bank overdraft of £7,500 and also in view of the greatly increased cost of wages and material further improvements are out of the question for the present at least.

ROYAL HOSPITAL FOR INCURABLES.

We were perfectly well satisfied with the result of our inspection of this Institution. One is especially struck by the absolute cleanliness and brightness evident in every part of the Buildings and the apparent comfort and contentment of the inmates under, in many cases, the most trying circumstances. Everything possible is done by the Governors and staff to make the lot of the patients as happy as possible and if many more of the charitable public were to visit this Hospital we feel certain it would not be in its present unfortunate position of having to turn away from its doors at each election very many distressing cases. The supporters of this Institution may rest assured that their money is expended to the very best possible advantage as every economy is exercised.

The Debt amounts to £7,279 0s. 4d.

As we have gone somewhat minutely into the condition of each Hospital we have nothing to add except that we are fully satisfied that the Government Grant in each case is thoroughly justified. Some of the Hospitals are badly in need of repair and painting, the expense of which the Governors are loth to incur in view of the heavy Bank Overdrafts.

It is only just to mention that we were afforded every facility by the Lay and Medical Staff of each Hospital during our Inspection.

The issue of this Report has been delayed owing to the destruction of the printer's premises by fire.

We have the honour to be,
Your Excellency's obedient faithful
servants,

LAMBERT H. ORMSBY, Knt., D.L., M.D., F.R.C.S.I.,
Chairman.

F. CONWAY DWYER, M.D., F.R.C.S.I.,

CHARLES E. LAMBKIN.

JOHN MAGEE FINNY, M.D., F.R.C.P.I.

JAMES INGLIS, J.P.

JOSEPH F. O'CARROLL, M.D., F.R.C.P.I.

ANNE M. McDONNELL.

MARGARET McNEILL.

JOHN DALLAS EDGE, C.B., F.R.C.S.I., Major General.

WALTER CARSON, M.D., F.R.C.S.I., Colonel.

GEORGE ROCHE, Knt., J.P.

JOHN ROBERT O'CONNELL, Knt., LL.D., J.P.

TREVOR N. SMITH, J.P., F.R.C.S.I., *Secretary.*

APPENDIX.

TABLE NO. 1.

A CLASSIFIED RETURN of the DISEASES of Patients treated in each of the Hospitals under the Superintendence of the Board; of the number of such Patients affected with, and of the number that died of, any particular Disease during the year ended 31st March, 1920.
